GROUP DOG WALK
Perfect for socialising; allows interaction with a small group of up to five other dogs.

Bitches in season and unsociable dogs cannot be accepted on group walks (an individual walk or toilet break may be available instead).

These walks may be suitable for puppies over 6 months old. Care is taken to prevent damage to developing joints by, for example, limiting the distance covered and restricting rough play. For younger puppies a puppy care visit or individual walk may be available instead.

1 hour group walk	First dog	Per additional dog from the same household
Monday to Sunday 8.00am to 6.00pm	£14.00	£11.00

These walks are particularly suited to puppies, elderly dogs or those that prefer their own space. I come to your house and take your dog(s) out, tailoring the length and pace of the walk to suit the specific needs of your pet(s).

PET SITTING
Pet sitting in your own home offers an alternative to boarding facilities for cats and other small animals while you are away. Your pet stays in their own familiar surroundings.

I can visit once a day or more to: -

- Check your pet's welfare
- Feed and water
- Provide companionship
- Clean out litter trays, fish tanks, vivariums, cages and hutches
- Take care of basic grooming
- Administer medication (including insulin injections)
- Apply flea/worming preparations

If required I can also water plants, bring in mail or newspapers, open and close curtains, turn lights on and off, put bins in and out, check overall security and ensure you have a pint of milk and a loaf of bread in the house on your return. For additional peace of mind, I'm happy to e-mail you updates and photos of your pet(s) while you are away. All included as part of the service!

Your pet insurance may cover pet sitter's expenses, particularly if you need hospital treatment, so this is worth checking.

Price is based on duration of visit rather than number of pets.

Pet sitting visit	15 minutes	Per additional 15 minutes
Monday to Sunday 8.00am to 6.00pm	£9.00	£3.00

TOILET BREAK
If your dog is elderly, recuperating from an illness/injury, in season or just doesn't need a long walk I can provide toilet break visits.

PUPPY CARE
New puppies are great fun but they can be hard work during the early months. I can visit once or more each day to top up food, replenish water, clean up any accidents, reinforce toilet training, work on basic obedience and spend time playing with your new addition. Your puppy can be taken on short walks increasing in length gradually to prevent damage to developing joints from over-exercising. No 'dominance theory' or use of aversive training techniques.

PET VISIT
Perhaps your new kitten would appreciate a friendly visit during the day or you have a pet requiring medication or post-operative care while you are out at work.

Price is based on duration of visit rather than number of pets.
